Problem Log

November 1, 2015

1 Project Problems

1. Didn't know anything about mapping software, didn't know which to use

2. The one I'm using is a two parter (mapbox + leaflet)

3. Trying to find a direction service

    (a) mapbox limit of 12, didn't know how to use geojson, no docs really

    (b) leaflet routing machine, low api call limit, lots of extra features I didn't want

   Other apps to look at later;
